EXPERIENCE

United States Army

August 2011 – August 2016

Supply Chain Manager, Savannah, GA

May 2015 – August 2016

- Achieved \$4 million of annual cost avoidance for 3rd Combat Aviation Brigade through a Lean Six Sigma project; procedures recommended for adoption by US Army Combined Arms Support Command at a value of \$44 million Army-wide
- Developed and led rollout of new supply chain procedures and financial reports for 3rd Infantry Division's 5 distribution centers that serve 15,000+ employees and the corresponding leadership teams
- Reduced supply chain turn-in transaction error rate from 54% to 2% through implementation of a Lean Six Sigma project and creation of a supply chain audit methodology, organization education initiatives, and a redesigned process flow
- Eliminated \$6 million of untracked liabilities through first GCSS-Army Wave 1 (SAP ERP) audit of supply chain transactions
- Captured \$1 million of savings through process improvement in supply chain conducting \$30 million in annual transactions

Operations Director, Savannah, GA

October 2014 – April 2015

- Streamlined onboarding of 40 personnel in conjunction with a staff turnover of 33% by developing and implementing a Company Movement Plan, Operating Matrix, and Company Reporting Plan
- Standardized Key Performance Indicators; improved operational visibility through creation and fielding of a logistics status report
- Directed distribution and maintenance operations to support an aviation unit of 400 Soldiers, 90 vehicles, and 32 airframes valued in excess of \$300 million through the strategic use of 109 Soldiers representing 15 different military occupational specialties
- Maintained company property book valued at \$18 million as well as the resupply and procurement of all supply classes

Operations Manager, Fort Polk, LA

October 2013 - October 2014

- Planned and executed 15 days of continuous distribution operations in 3 remote locations in support of a 5,000 Soldier operation at the Joint Rotational Training Center (JRTC); enabled aviation operations through uninterrupted distribution of 100,000 gallons of fuel and 10,000 rounds to 32 aircraft
- Commended by JRTC leadership for distribution procedures that were submitted as Best Practices to the Army Petroleum Center
- Led the success, training, and development of 52 Soldiers as well as the distribution operations in support of an aviation unit of 400 Soldiers and 32 airframes valued in excess of \$300 million
- Generated competency and safeguards in rapid aviation rearming and refueling operations through the integrated use of 52 Soldiers, 25 vehicles, and 3 unique fueling systems

Transportation Manager, Zabul, Afghanistan

December 2012 - September 2013

- Planned and coordinated the on-time closure of Forward Operating Base Wolverine in Zabul, Afghanistan from its height of 1,700 personnel in an 8 sq. km footprint to an outpost containing less than 100 personnel in a footprint no larger than a football field
 - Published analysis on Retrograde and Base Closure Best Practices for the Center for Army Lessons Learned
 - Developed, coordinated, and supervised a transportation system requiring backhauls twice weekly by an Army Transportation Company and daily backhauls by more than 3,000 Afghan contracted trucks from four different contractors over a 5-month timeframe without incident to Soldiers or civilians
 - Transported over 24 aircraft as well as 45 individual containers and pieces of equipment through an international, multimodal redeployment approach without incurring any loss or damage
 - Provided oversight and assistance for the management of 15 Contract Officer Representatives managing over \$25 million in theater and local contracts at Forward Operating Base Wolverine
-
