Experience

Senior Project Manager, HAVI, Downers Grove, Illinois

02/13-Present

- Provide strategic and tactical development leadership on the planning, design, engineering and commercialization of packaging solutions that contribute to the growth of large food service companies including Bloomin' Brands, Panda Restaurant Group, Panera Bread Company, Taco Bell International, Noodles & Company and McDonalds
- Proactively identify continuous improvement opportunities and develop a business case for clients
- Lead complex, multi-phased packaging solution development projects by managing the manufacturer network and clients' operations environment
- Provide concept development and technical leadership throughout the proposal, development, commercialization, execution and post-execution support by engaging with cross-functional teams including internal and external resources
- Led the design and development of retail packaging for the startup company Ullo Wine
- Supervise department's Package Engineering co-ops
- Promoted from Project Manager to Senior Project Manager in 06/14
- Received 2015 Sapphire award for providing exceptional packaging development support that resulted in the first HAVI exclusive packaging consultant agreement with an existing client

Package Engineer, Abbvie Inc. (formally Abbott Laboratories), Abbott Park, Illinois

01/09-02/13

- Contracted through Automated Systems, Inc.: 01/09-06/09; hired as Package Engineer III: 06/09-03/10; promoted to Package Engineer II in 03/10
- Developed global commercial packaging for new pharmaceutical products
- Received Engineering Excellence Award for managing two year international project that resulted in \$1.8MM annualized savings by reducing 50 tons of tertiary packaging globally and improving transportation efficiency by 13%
- Represented pharmaceutical division on the Abbott Sustainable Packaging team and provided sustainability expertise related to packaging materials
- Reduced packaging weight on the division's top 8 products by 414,000 pounds
- Conducted monthly cross-functional project team meetings with Global Drug Product and Development, Manufacturing, Stability, Commercial, Regulatory Affairs and Supply Chain departments
- Provided technical analysis and evaluation of packaging materials including paperboard, corrugated, blister films, foils and rigid plastics
- Developed quality specifications and regulatory filing documentation for product launches
- Supported solid oral dose blistering and bottling lines by conducting line trials for new commodities and executing OEE improvement projects

Additional Experience

Packaging Intern, Multi-Packaging Solutions, Lansing, Michigan

08/08-12/08

- Assisted Packaging Customer Service Representatives with large quantity purchase orders
- Developed procedural documents for various positions within the packaging division
